

India EV revolution is accelerating - AtliQ has a narrow window to capture market share before competition entrenches.

India's EV penetration grew from 1.3% in FY2022 to 6.4% in FY2024. The Top 5 states account for 62% of all EV sales. AtliQ Motors' current <2% market share leaves massive room for growth.

Recommendations for Business Manager

1

Enter via Maharashtra & Kerala

Highest projected volume + mature EV ecosystem + existing charging infra. Lunch 4-wheelers here first

2

Manufacturing unit in Gujarat

Strong FAME-II subsidies, ease of doing business rank #1, proximity to ports for export. Ideal for assembly plant.

3

Partner with MS Dhoni as brand ambassador

Pan-India appeal, trusted figure across age groups, aligns with AtliQ's premium + reliable positioning.

Strong States with negative penetration: Ladakh, Lakshadweep. Avoid for initial lunch.
